Portfolio

Professional summary

Frontend-focused Full Stack Developer with 1.5+ years of experience building modern web applications using **React.js**, **Next.js**, and the **MERN** stack. Designed and implemented scalable, reusable UI components and optimized performance to enhance user experience. Integrated **RESTful** APIs and managed state with **Redux** and **Zustand**, ensuring smooth data flow across applications. Delivered projects on time within **Agile/Scrum** teams, writing clean, maintainable code and continuously adopting emerging web technologies.

Internships

Information Technology Institute (MEARN) | Scholarship — Feb 2025 - Aug 2025

- Acquired comprehensive knowledge and practical experience in full-stack web development using MongoDB, Express.js, React.js, Node.js, Angular, Next.js, and Nest JS.
- Developed dynamic, scalable, and responsive web applications with strong focus on RESTful API design, server-side rendering, and robust backend architectures.
- Completed multiple projects demonstrating expertise in full-stack development and delivering seamless user experiences.

Work Experience

Full Stack Developer:

Mentorax: — **Sep 2025 – Present**

- Developed and maintained full-stack features across multiple active web products serving B2B/B2C users
- Built responsive UI pages, integrated backend APIs, and delivered feature updates and bug fixes

Freelance Frontend Developer: — May 2025 – Aug 2025

Taahud — Project-based contract

- Built and delivered responsive frontend screens based on provided UI designs
- Connected frontend components with backend APIs and handled UI fixes during the project

Education

Bachelor's Degree Computer Science and Artificial Intelligence — Sep 2020 – Jul 2024

Benha University

Grade: Very Good / 3.63

Graduation Project: An interactive system using computer vision with Unity and Flutter to support therapy for children with cerebral palsy.

Grade: Excellent

Core Skills

- Html
- Css
- Bootstrap
- Tailwind
- JavaScript
- TypeScript
- React js
- Next js
- Angular
- Redux/Zustand
- Node js
- Express
- MongoDB
- Sass/Scss
- Git & GitHub
- Shadcn

Projects

Mentorax – EdTech Platform (Full Stack) (Live) Sep 2025 - Present

- B2B/B2C platform for professional training and certification, offering online/in-person courses, exam bookings, corporate training packages, and targeted educational ads — empowering professionals with skills development and career advancement. Built using Django, PostgreSQL, Bootstrap 5, Redis, Docker, Nginx, ZeptoMail SMTP, Meta Pixel integration, MAIB payment gateway, Socket.io for real-time features, and comprehensive i18n support (multi-language).

LigoFlow – AI Workflow Platform (Full Stack) (Live) Jan 2026 -Present

- B2B AI workflow platform enabling organizations to integrate with communication, meeting, and task management tools, analyze team conversations, and automatically generate tasks, insights, and action items. Built using Next.js, Django, Celery, Lemon Squeezy, AI provider integrations, and third-party app integrations.

Dawaback – Pharma Platform (Full Stack) Jun 2025 - July 2025

- B2B platform for pharmacists to exchange near-expiry meds, list pharmacies for sale, and run targeted pharma ads — reducing waste and unlocking new business opportunities. Built using React, Zustand, TailwindCSS, Shadcn, React Router, Formik with Yup, Node.js, PostgreSQL, Supabase, and Socket.io for real-time communication.

TolabExam – Smart Online Examination System (Live) Feb 2025 - Feb 2025

- Created a full-stack online exam system using **Angular**, **Tailwind CSS**, **Chart.js**, **Node.js**, **Express**, **Prisma ORM**, and **PostgreSQL** with real-time monitoring and secure **JWT** authentication.

Languages

- **Arabic:** Native language
- **English:** Fluent
